

Distributor Pricing for Protectrix™

The Wireless Automatic Garage Door Timer

Distributor Information

- 1) The MRP (minimum allowable retail price) for Protectrix™ is **\$89 per unit**. As a distributor you must advertise and sell for any price greater than or equal to the MRP.
- 2) Volumes greater than 2 units may be sold at any price deemed appropriate by the distributor.
- 3) Because no wiring is required **installation only takes minutes**, allowing you to assist more customers increasing your productivity and efficiency.
- 4) There are no additional requirements to becoming a non-exclusive Protectrix distributor.
- 5) Request the exclusive distributorship agreement if you are interested in becoming an exclusive distributor.

Unit Pricing

Pricing is based on a sliding scale. We occasionally have discounts for dealers if you provide a business license, phone number, and address/web address. Call for our latest promotion.

Units	Cost (\$USD/Unit)
1	\$89.91
10	\$79.68
20	\$73.85
50	\$66.50
100	\$62.49
200	\$59.96
500	\$58.22

Unit pricing is based on the total number of units purchased by the distributor over the last 18 months.

Example: if at first 60 units are purchased, then 3 months later 40 units are purchased, the second order of 40 units are sold at the 100 piece price point (\$62.49 each), and the first order is at the 60 unit price point (\$65.29 each).

Shipping

Shipping costs about \$8 for 10 units to the domestic USA via USPS. Occasionally as a promotion we will pay the shipping costs.
